

Presentation Skills

Would you like to be more confident when presenting or speaking in public?

Our Presentation Skills course will help you create a genuinely engaging presentation and deliver it with confidence, clarity and conviction.

See yourself on the big screen! At the beginning of the course we will film and review your initial presentation, offering plenty of tips and constructive feedback. After 2 days of learning we'll film and review your final presentation so we can see a before and after comparison. Because this is conducted in a safe learning environment we have found this approach to be one of the most powerful methods for improving presenting skills.

Snapshot

Duration: 2 days

Learning Outcomes

At the end of this program you will be able to:

- Structure a presentation
- Use a variety of strategies to engage an audience
- Effectively deal with nerves
- Recognise and use nonverbal communication effectively
